the truth about you

It's not always easy to learn the truth about yourself. But if you look deeply enough you find the spiritual core of life that was once described to us for all time — "The Kingdom of God is within you" (Luke 17:21). There's a one-hour public lecture coming on this subject. Title: "The Priceless Gift of Knowing Oneself," by Theodore Wallach of The Christian Science Board of Lectureship. Everyone is welcome.

Accidental Shot Fired Near Canal Wounds GC Youth

David Johnson, 17, of 3953 Lake street, was accidentally shot in the face with a .22 caliber rifle while riding on the rear of a motor bike along the Chain of Rocks canal levee near the canal bridge at about 2:30 p.m. Thursday.

The shot was fired by Jerry Moore, East St. Louis, who was shooting at blackbirds in a gully about three-quarters of a mile away.

Moore told county sheriff's officers that he fired at a bird, saw it fly away, and then noticed that two youths on the levee were in some difficulty.

Moore drove his car to the scene, he told authorities, and determined that he had shot the youth who was riding on the rear of the motor bike.

Johnson was bleeding from the cheek when he was taken to the hospital and thought he had been hit in the face by a rock, authorities said. Moore took him to St. Elizabeth Hospital, X-rays were taken, but the slug was not located. It may have lodged in the neck which became sore and swollen later.

Moore's weapon was a single-shot rifle with a telescopic sight.

Fast-Changing World Cited By AFT President

Carl Megel, American Federation of Teachers president, cited increasing complexity of the world, automation, social changes and scientific technology as presenting a major challenge to education during a talk here Saturday night before a gathering of 100 at a banquet of Madison Teachers' Local 763.

Asserting that "poverty has its roots in lack of education," the official urged greater utilization of teachers in improving curriculum and other aspects of the school program. Megel said all 65 Madison teachers at AFT members. He praised cooperation between Madison school officials and teachers.

Megel said the world has changed faster in the last 20 years than at any previous period. He urged closer links between instructors, administrators and boards as a means of keeping pace. Mrs. Addie Darden, Local 763 president, was toastmaster and there were introductions by Porter Cavely of the local and Madison School Board President John Belloff.

George Thomson, who is retiring this year, received a gift certificate and Miss Clara Funk is to be similarly honored. Locals represented included Granite City, Venice, Roxana, Edwardsville, Collinsville, East St. Louis and Cahokia.

district were party positions of representative commonmen. Quicker Vote Count

Precinct judges are expected to complete their tallying of the ballots more rapidly, however, as they will not be faced with the split votes given state representative candidates in the past.

Precinct opposition had been strong in both parties in the race for delegates to the national nominating convention from the 24th congressional district which includes St. Clair and Madison County.

On the Democratic side, three candidates for two delegates are George J. Moran of Granite City, Dick H. Mudge jr. of Edwardsville and Maurice F. Joseph of New Athens. Mudge is Granite County state's attorney and Joseph, paired with Moran, an attorney, is St. Clair county sheriff.

Republicans backing Goldwater for president are Mrs. Phyllis Schaffly of Golliday and Dr. L. Rauth of Belleville, and paired for Rockefeller for president are Rolla J. Mottz of Gaffney and Ralph D. Walker of Belleville.

Candidates for two alternate delegates to the national convention are Democrats William H. Jenkins of Worden and Frank M. Summers of East St. Louis, and Republicans Patricia Diane Keeler of East St. Louis, Dr. Harry Maltz of Alton and Russell H. Classen of Freeburg.

State Candidates

There is no opposition on the Democratic ticket for state offices, but each post on the Republican ballot is crowded.

The state Democratic candidates are Otto Kerner of Glenview for governor, Samuel H. Shapiro of Kankakee for lieutenant governor, Paul Povel of Vienna for secretary of state, Michael J. Howlett of Chicago for auditor of public accounts, and William G. Clark of Chicago for attorney general. All are incumbents, except Povel, who served as a state representative.

GOP Choices

There are five GOP candidates for the gubernatorial nomination. In addition to front-runners Charles H. Percy of Kenilworth and State Treasurer William J. Scott of Evanston are Barnard J. "Barney" Neidle of Chicago, Alvin A. Skallish of Chicago Heights and Lar "America First" Daly of Chicago.

Seeking the nomination for lieutenant governor are Edward G. Price of Springfield, Allan A. Walters of Monmouth, Warren Wood of Plainfield, John Henry Alder of Peoria, Marvin E. Dee of Chicago, Howard J. Doyle of Chicago and John A. Graham of Barrington. E. Farnsworth of Chicago, Terrel E. Clarke of Western Springs, Walter J. Haas of Chicago, Elmer J. Hoffman of Wheaton and Harley D. Jones of Chicago.

For auditor of public accounts are Walter E. McCaffon of Oak Park, Sherwin Wilens of Skokie, John W. Wam of Chicago, Charles W. Springfield, Maurice W. Cohn of Chicago, Louis "Lou" Haime of Chicago, James P. Hennessy of Joliet, Senator Gordon E. Kerr of Brookport and John Kirby of Williamsburg.

For attorney general are William F. Lavelle of Chicago, Elroy C. Sandquist jr. of Chicago, Jack F. Sperling of Chicago, William D. Stiehl of Belleville and Robert R. Canfield of Rockford.

Congress, President

Each ballot contains only one candidate for representative in Congress from the 24th district. They are Melvin Price of East St. Louis, Democratic incumbent, and Republican G. S. "Kenneth" Mirza of East St. Louis.

The Democratic ballot lists no candidates for the president of the United States, though President Johnson is expected to receive a large number of write-in votes. On the Republican ballot for president are Sen. Barry M. Goldwater of Phoenix, Ariz., and Sen. Margaret Chase Smith of Shoshone, Mo., and write-in votes are expected for other an-

Finances Studied To Update GC 1958 Master Growth Plan

A cost-sharing program to update Granite City's 1958 master growth plan was proposed during a meeting at the city hall Thursday afternoon called by the City Planning Commission.

The overall cost is estimated at \$35,000, and application is to be made for the funds to be paid by the federal government, it was explained by David Morgan, chairman of the City Planning Commission and executive director of the Granite City Tourist Authority.

The remaining \$11,000 is to be raised locally. In getting the 1958 master plan, the city paid 55%, school district 22%, the park district 17% and the housing authority 5% of the total cost.

Emphasis will be placed on updating subdivision development and controls, studies for parks and schools as well as housing and population trends, industrial and commercial growth and zoning.

Study of Central Core

Special emphasis will be made on study of the city's central core—the business-commercial area—because of its importance for the development of the community, Morgan said.

For this reason, the Association of Retailers and Chamber of Commerce are being asked to participate. They will be asked, along with the school district, park district, city and housing authority to aid in the financing.

Morgan said the representatives are to meet with their boards and to notify him of the results next month.

Taking part in the meeting were Maurice Rich of the Retailers' C. of C. president, Chester Baker and manager Harlan Dobry; school board members George Stidham, Albert Spangler and Ralph Buske; Alderman Donald Partney; park district president Barry Loman and commissioners Milton Worthen and Milton Allen; planning commissioners Henry Gabriel and Clarence Allen and Edwin Reiske of the Tri-City Trades & Labor Council. Morgan represented the housing authority.

You perhaps read my article which in substance said that multitudes were using Jesus last commission as recorded by Matthew (25:18-20) as a revolving door to avoid the real meaning Jesus intended to convey, and did convey to the understanding of all the apostles. Matthew's record there did not specify the need of repentance—but Luke's record did (24:47). Matthew's record did not specify the requirement of Faith—but Mark's record did (16:16). Matthew's record did not specify the value of baptism, only that it should be done—but Mark's record did (16:16). Matthew did not tell us what the NAME of the FATHER or SON or HOLY GHOST is, only that whatever that NAME was should be the NAME into which those who had been taught should be baptized—but the apostle Peter tells us what that NAME IS (Acts 2:38). Matthew's record only told the apostles that Jesus would be with them and the Church until the end of the world (or age); but did not specify that He would be with them in the form of the Holy Ghost—but John's RECORD does specify the Holy Ghost (14:16-18).

What I am saying is: The Last Commission is not to be construed apart from other scriptures that typically are part of that Commission; as well as the historical Bible record which shows in what sense the first Church understood and practiced that Commission. Whether you believe it or not, or want to believe it or not, all of the elements of Jesus last Commission as found in the gospels and Acts 1-8 are all summarized and illustrated and explicated forth in ACTS 2, with the exception of: Teaching them to observe all things that I have commanded you, which would require perhaps years to fully teach a believer.

Three Granite Citymen Awarded Cagle Letters

Three Granite Citymen, including record-setter Carl Wortham, have been awarded varsity basketball letters by St. Louis Business College of St. Louis.

The team posted a 20-9 record, best for the school since the 1947-48 team had a 22-4 mark. St. Louis-Brown won the Greater St. Louis College Conference title and finished third in the St. Louis Kiwanis Invitational Tournament.

The 6-4 Wortham set an all-time school scoring record with 734 points (27.2 per game) to break his own record of 580 set last year. Wortham hit 52% from the field and paced the team in rebounds with 353, also a record.

Also lettering were his brother, Larry Wortham, who averaged 6.9 points a game and Bill Haven, who averaged 12.9 and led in assists with 131.

Other Illinois athletes among the 11 lettermen are Collinsville's Bob Simpson and Alton's Bob Nichols. Simpson averaged 21 points a game.

Sports Layoff Ends At GCHS

Athletes at Granite City high school are scheduled to celebrate the return to normal school activities this week with home contests in all four spring sports.

Whether the celebration will be a happy one depends on how much the week-long layoff, caused by the school custodians' strike, affected the boys.

The tennis team starts the activity with a match at 4 p.m. today against Madison at the Wilson Park courts. Coach Ed Harmon's squad is also scheduled to visit Collinsville Wednesday, entertain Wood River Thursday, and go to Champaign on Saturday.

The netters opened the season by beating Wood River and Alton but the strike stopped their three matches slated for last week.

Coach Jim Morrison's trackmen entertain Edwardsville in a dual meet at 4 p.m. tomorrow. It will be the first home appearance for the squad, defeated in its other dual outing by Alton.

The Warriors are slated to enter the Southwestern Conference Relays Friday at Alton.

The baseball Warriors of Joe Fedora entertain East St. Louis in both varsity and sophomore games at 4 p.m. tomorrow. The varsity will play at Wilson Park's No. 1 diamond, the sophos on a nearby field.

The teams are scheduled to visit Collinsville Wednesday and entertain Wood River Friday. Then Saturday the varsity squad will split up—half playing host to Cairo and the other half visiting St. Peter & Paul of Waterloo in doubleheaders. The sophos are tentatively slated for a twin bill with Cairo here also.

Athletic Director Dick Yates said contests postponed due to the strike have not been rescheduled. The normal sports programs resume also this week at Coolidge, Prather and Central junior high schools.

Tom Williams Fans 18 But Game Ends In Tie

Things are looking up for the Madison high school baseball team.

After three straight losses in which the Trojans' pitchers were not only tagged hard but exhibited extraordinary wildness, the team finally got a good pitching performance Thursday at Dupu.

Unfortunately, darkness ended the Madison Conference contest before a 4-4 tie could be broken and it will probably be finished when the Tigers visit Madison April 27.

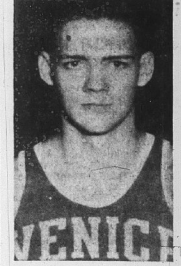

But Coach Art McClanahan was impressed by the pitching of sophomore letterman Tom Williams, who gave up only four hits and registered 18 strikeouts. This required only three batters to be put out by Madison fielders; the result, no errors.

Walks Hurt Again
To go along with his impressive string of strikeouts, however, right-hander Williams walked seven Tigers and three of them eventually scored.

Wildness has plagued the Trojans all season. In the opening three losses, their pitchers walked a total of 29 batters. However, on Thursday Madison failed to hit the strike zone hurt Dupu lefty Herman Mason even more than Williams.

Mason gave up only two hits—a triple to right by Jim Cronin and a double to left by Mike Leadoff—but he walked 12 and was constantly in hot water.

Dupo opened the scoring in the first inning with two runs, a walk and two hits. Madison tied the count in the second

PAUL SITTION, senior center and top rebounder on the Venice high school basketball team, who was named the Red Devil's most valuable player at a banquet Thursday night in Belleville.

Trojans Slated For Triangular

Coach Glen Pickering sees few bright spots ahead for his Madison high school track team, which is preparing for a triangular meet tomorrow.

The Trojans visit Roxana at 4 p.m. tomorrow to compete with the host Shaws, a Midwestern Conference powerhouse, and the Highland Bulldogs, who easily outscored the locals in a triangular last week at Dupu.

Pickering's squad is hampered by a lack of experience, with only three lettermen available. One of those, Lester White, won the 100-yard dash and ran on the winning 880-yard relay team in the Trojans' initial outing.

White's winning time was 11.4. The 880 team, which finished in 1:40.3, consisted of White, Mike Kouch, Ron Burt and Steve Washenko, but Pickering indicated he may change that lineup tomorrow.

The Trojans scored 18 points in the triangular, with Dupo getting 67 and Highland 63. Roxana won the conference meet last year.

The summary:
Score by innings: R H E
Madison 020 200 0-4 2 0
Dupo 200 101 0-4 2
Williams and Summers; Mason and Kouchberger.

Madison Switch For Committeeman

A write-in campaign for the Democratic committeeman post in Venice township Precinct Eight is being planned for Madison Third Ward Alderman Raymond Kozielek to unseat the incumbent, Sam Chomko, who last week was dismissed from his \$75-a-month city job as city health officer for Madison.

It was learned a meeting was held yesterday at the Madison recreation center to plan the write-in campaign for Kozielek, who has the endorsement of the Madison city organization.

Mayor Maers today confirmed the dismissal of Chomko from his city job both the city health job and the committeeman post. Chomko is unopposed on the ballot.

Yesterday's meeting was to advise poll judges of procedures for write-in votes. It was learned Chomko said he became aware of the change when he failed to receive funds from the Democratic county central committee to hire workers. It was reported the amount is 70 cents per voter, and the precinct has about 600 voters.

No comment.

DR. W. W. BILLINGS

Dr. William Wyatt Billings, 70, of Alton, is a Democratic candidate for coroner of Madison county.

Dr. Billings, who has been the county's coroner since 1956, served in the same office from 1932 to 1944.

A practicing physician for 42 years, he was graduated from Chicago University in 1918 and from Rush Medical College in 1921.

He is a veteran of both world wars, is a 32nd Degree Mason and is a member of the Odd Fellows.

In seeking re-election, Dr. Billings said, "I think the coroner should be a doctor with experience of having years of practice as his background. A doctor is best qualified to rule correctly on deaths and order a post mortem when necessary to determine the cause of death. Even many deputy coroners exist that are not physicians. The coroner should and does have a close relation with all his staff and rules on all cases in doubt."

Dr. Billings gave the following answers to a Press-Record questionnaire:
1. Do you think the decision on whether to hold an autopsy should be left up to the family of the deceased in borderline cases?

"No. The coroner does not have the power to prevent an autopsy if the nearest of kin desires one. He (the coroner) should assist the family at all times in solving any problems that are faced on coroner cases. The coroner should evaluate the facts surrounding the case and rule with wisdom."

2. What changes do you think should be made in the operation of the office of coroner?

"The coroner does not exist in order to permit him to allocate the duties of other law enforcement officials. The coroner should assist all law enforcement officials, sheriff, state police and city police in the solving of all crimes committed in his county. One official should not attempt to usurp the power of any other law enforcement official, but he should cooperate with all other law enforcement officials in enforcing the law. I know of no substitute for honesty and fair play in dealing with the public's business."

Eight Democrats, Three Republicans Entered In Levee Board Primary

WILLIAM EBERSOLDT

William "Mike" Ebersoldt, 53, of 804 Third Street, Venice, is a Democratic candidate for the levee board.

He has been Venice city clerk 10 years and is employed as a switchman for the Terminal Railroad Association. He has also served as secretary-treasurer of Lodge 1049 Brotherhood of Railroad Trainmen, secretary of the Grand Council, vice-president of the Crippled Children's organization, vice-president of the Chamber of Commerce in Venice and in offices of the Independent Order of Odd Fellows.

In the railroad brotherhood, he is now serving as an Illinois legislative representative and was a delegate to its two national conventions.

He is also a member of the Venice Social Club, the First Methodist Church in Venice, the Masons, the Shrine Club. He was a Venice park commissioner for two years. Mary, his wife, has three children ages 31, 22 and 19.

His belief is that everyone should serve in some way—in civic affairs and his government," he said. "Also to keep his ideas and standards at a certain level and to be able to keep his mind open so he may act to the best interest of which he is entrusted."

His answers to the Press-Record questionnaire follow:

1. No doubt this was done to regulate a condition that seems to prevail—a record is not of my favor until a feeling is felt by the people to favor such a repeal.

2. It has some points of merit under the aid with the Army Corps of Engineers as they enter into the picture of the levee board more than the average citizens realize.

3. No doubt this can be done but as I say, a study by the board and others should be made to save where ever possible.

4. My mind would tell me when a condition prevails to the above question. The levee board should act, if within the law to act and should never shrink on its responsibility to do all it can in the district.

5. I sure do.

6. This condition does exist. It has been related. It may have to happen to some degree but not on a wholesale plan.

7. I do.

8. My belief is that a very good study should be made and the many pros and cons should be brought to the surface. The history of the levee board began in 1907 at that time was sorely needed and no doubt it is needed, but it should and can be run like a business to the best interest of the people in the district it now serves. And I will assure anyone—if I am elected—I will surround myself with people who will carry the will of all in this district.

Re-Election Being Sought By Tolar, Duff, Hennessy

Eleven men—eight Democrats and three Republicans—are candidates for four-year terms as trustees of the East Side Levee and Sanitary District, the agency that administers flood control, sewage and pollution abatement for an area including East St. Louis and the Quad-Cities.

The Press-Record sent a personal information sheet and a questionnaire concerning operations of the levee board to each candidate.

Since a few did not return the requested information, the biographical material and answers to the questions (see box) on all candidates are not complete on John Molla who resigned.

Tolar, Duff and another candidate, Thomas F. Hennessy, are incumbents. Campbell was recently appointed to trusteeship to fill the vacated position of John Molla who resigned.

Record to obtain the information from the candidates yielded unsatisfactory results.

Five candidates—William M. Campbell, Joseph A. Grant, Lawrence "Larry" Tolar, Morris Campbell and George Duff—are campaigning as a ticket for the five seats on the board.

Man Gets Six Months For Beating GC Woman

Hugh Bertrand, 28, of Chicago, an ex-convict convicted of aggravated assault, was sentenced to six months at the State Prison, Vandalia, Friday by Associate Circuit Judge Michael Kinney at Edwardsville.

He was accused of beating and robbing Mrs. Opal Eide, 33, of 1709 State Street, last Dec. 10 at her home after accompanying her to a tavern. He was arrested after midnight that night aboard a Chicago-bound train at St. Louis airport.

In another case, Associate Circuit Judge Fred Schuman denied a motion to dismiss charges against Charles Wayne Lucas, 24, of St. Louis, on a narcotics possession case, and his trial date was set for Thursday.

Dicus was arrested in 1961 at a rooming house by Granite City police. His ex-prosecutor attorney sought his release on a legal technicality that the state's attorney failed to make reasonable attempts to have him brought here for trial within a reasonable period of time while he was serving a term in the Missouri penitentiary.

Commission Finds Jail Facilities 'Deplorable'

Conditions described as "deplorable" were found in the county-old Madison county jail at Edwardsville by the 23-member citizens investigation commission that inspected the building Thursday.

Rev. Paul Surbey, commission chairman, said another meeting will be held in county board of supervisors' room in the courthouse at 7:30 p.m. next Monday to evaluate the findings by the 15 commission members present for the commission. They were accompanied by engineers.

Rev. Surbey, who is pastor of St. John United Church of Christ here, said the commission is limiting its present inspection to the county jail and will submit a report to the county board of supervisors at the April 29 meeting in Edwardsville.

"We have been asked to inspect all county buildings, but we've found the task will have to be carried out building by building," Rev. Surbey said.

He said the commission found the jail wiring and plumbing inadequate, walls bulging 4 inches with defective locks that permit prisoners to mingle hardened criminals with youngsters being detained for crimes.

He denied that the board had any intention of crowding women aspirants for the office from the printed ballot, declaring that space will be left on the ticket for those who wish to write in any other names than those who filed petitions.

Strike Moratorium Enabling Schools To Operate Normally

The two-week truce stemming from the circuit court hearing is in the public interest because it has restored normal operation of Granite City public schools, effective today. Resumption of regular classes in the primary division tomorrow for a temporary injunction against striking custodians and non-working maintenance and teaching personnel.

With no further picketing scheduled until Monday, April 27, and the hearing scheduled to be resumed Thursday, April 23, there appears to be little or no chance of further disruption of the instructional program, at least on the current issue. Nevertheless, the party should make sincere efforts to reach a compromise agreement, preferably this week.

As was stressed here previously, the schools must operate in order to provide the education needed by the more than 13,000 students of the school district. This objective must be—and now is being—placed ahead of every other consideration.

Recommendations On Primary Election Voting Tomorrow

Continuing a policy of expressing its viewpoint on ballot choices to be made by Quad-City, the Press-Record today comments on candidates in the primary election tomorrow.

For the many candidates who are unopposed, endorsements are omitted; they are virtually certain to win nominations in the absence of organized write-in efforts.

Despite the fact that most Madison county office-seekers and all Democratic state candidates have no opposition, it is still important that local residents vote. In addition to Republican state officers, the state representative delegate, levee district and party contests deserve study and voting by all.

No recommendations are given on the office of president, since the ballots do not include a cross-section of the contenders.

Silver Beaver Awards Are Highest Scout Council Honor

Silver Beaver awards presented to Dr. Leo Coleman and Gene H. Sternberg tell an eloquent story of effective and devoted service to the scouting movement. They represent the highest honor that can be bestowed by the Cahokia Mound Council of the Boy Scouts of America.

Sternberg, immediate past council president, and Dr. Coleman, a widely-known authority on April sailing, have been active youth work and civic service both in and out of the scouting field for many years. They are worthy additions to the growing list of Quad-City recipients of the Silver Beaver.

Good citizens can keep it running. Please give it as much time and backing as you can afford.

WAGE EARNERS LEAGUE IS BACKING BARTYLAK

 The Southern Illinois Wage Earners Educational League held their meeting in Belleville on Sunday, Feb. 23, 1964. Among the items of business presented was the nomination of a candidate for the office of state's attorney of Madison county.

Large Tax Sums Could Be Wasted By Exaggeration Of River Problem

Two factors appear to be ignored in the decision by St. Louis port interests to renew their once-annual request for a costly, federally-financed survey of Mississippi River conditions.

One is that there is a clear distinction in the law between Corps of Engineers responsibility to maintain adequate river channel depth, and the absence of responsibility to assure sufficient depth at privately-created terminals and harbors.

The other point is that river shipping, rather than declining, actually increased substantially during the past winter.

There may have been a drop in business at some St. Louis ports plagued by low water, but there was a sharp rise in shipping activity at the Port of Granite City, which is located within the Missouri-Illinois metropolitan area and contributes to the economy of that area. Talk of lost wages and profits apparently did not take into account the existence of the busy river terminal located immediately above the Chain of Rocks Canal locks.

The real issue is not the river itself but the particular location of water, which is far beyond the scope or financial ability of the Army channel dredging program. As the St. Louis district Army engineer said at a meeting in the St. Louis city hall this month, "We can't afford to fight the river. We let the river help us in maintaining navigation."

While the unusual drought admittedly has caused difficulties in recent months, the fact that there was greater use of the river than before clearly shows that there was a good channel most of the time.

We hope Congress, the Senate and the Chief of Engineers are not stampeded by the mushrooming and exaggerated St. Louis lobbying campaign, because the \$40 to \$50 million expenditure being discussed is too much money to waste. Even the survey that is being suggested would cost hundreds of thousands of dollars, estimates indicate.

Crackdown On Closing Hours—At Laundries

"You won't be able to keep your clothes clean, but they'll make sure you can drink all night."

This slightly impertinent but to-the-point comment by a reader sums up the surprise at the stand taken by the last Madison county council meeting. At a time when public attention was centering on curtailing tavern hours to make them uniform, the council instead made plans to shorten the hours of automatic laundries.

It might be possible the view laundromats as a menace to public safety, on the basis that they are centers of "wee hours" activity, giving people an excuse to be out on the streets—and possibly having auto accidents or burglarizing homes and stores when police are out of sight. But this has little validity when the taverns also are open, giving ample excuse to be walking or driving about the city.

Regardless of how East St. Louisans vote on tavern hours in their city this week, we see no reason for Madisonians to "tag along."

All of Madison county, in which Madison is located, including cities and rural areas, has adopted uniform tavern hours except Madison. This is the central issue, before and after April 14.

April A Month Of Many Major Events In Past

April, appropriately, is derived from the Latin verb *Aperire*, meaning "to open"—an allusion to the opening of buds and flowers each spring.

The current month has long been associated with the wars of the United States. The Civil War began and ended in April—starting April 12, 1861, in Charleston Harbor and coming to a close April 9, 1865, at Appomattox.

Major events have included such tragedies as the sinking of the Titanic ocean liner April 15, 1912, and the great San Francisco earthquake, followed by fire, on April 18, 1906.

April also is known as the month in which deaths of many famous persons have occurred. To the list that includes President Franklin D. Roosevelt on April 12 and President Abraham Lincoln on April 15 must be added General of the Army Douglas MacArthur on April 5.

While this month inevitably causes thoughts to hark back to the past, the flowering of plant life which brings all this attention to the future. Occasions closely associated with, mid-spring include Arbor Day, April 24, and the start of daylight saving time April 26.

April also is a time to bring May flowers. April City lawns and gardens will soon be transformed into a colorful panorama. Although only a few days old, April 1964 already has done its part in terms of rainfall.

 The world, groping in darkness, needs a light to guide out of the darkness. The world, driven on a storm tossed sea, needs an anchor sheet to keep it straight on course.

Double-Ring Ceremony for Hull-Donaldson Nuptials

Miss Patricia Elin Donaldson, 501 Margaret avenue, became the bride of David L. Hull, whose parents are Mr. and Mrs. William Hull, 531 Chouteau avenue, Saturday evening in a double-ring ceremony at the Mitchell Presbyterian Church. The Rev. John Di-Giacomo officiated at 7 o'clock. Bouquets of white gladioli and poms decorated the altar, and a program of wedding music was furnished by Mrs. Floyd Mercer, organist, and Mrs. David Ewing, vocalist. The songs were "Always" and "I Love You Truly".

A gown of Chantilly lace over peau de soie was worn by the bride. It was designed with a fitted bodice, a modified boat neckline dipping to a V in the back and a jacket of lace buttoned in the back and with long-length sleeves. A crushed chignon cummerbund outlined the waist in front, ending in a tiered double pouf in the back. A fingertip veil of imported silk tulle was attached to a band of self fabric delicately gathered, with a cluster of seed pearls sprinkled with crystals at either side. A cascade arrangement of white carnations with lemon leaves and a shower of white ribbon was carried by the bride who was given in marriage by her father.

Mrs. Russell Corzine was matron of honor for her sister and Donna McCaine and David Klein, son's of the bride, were bridesmaids and flower girls. Mark Bickler carried the rings on a heart-shaped satin pillow. The honor attendant and the bridesmaid were dressed alike in light blue nylon chiffon over peau de soie. The gowns had modified boat necklines in front and a V in the back tied with nylon bows which formed floating panels. Criss cross cummerbunds were worn by the bridesmaids.

The wedding was given Friday evening at Donaldson, the bride's paternal grandmother, and an uncle, Dan Donaldson, both of Ramsey, Ill. The rehearsal dinner was given at the home of the bride's parents, operated by the bride's parents.

Out of town guests here for the wedding were Mrs. Laura Donaldson, the bride's paternal grandmother, and an uncle, Dan Donaldson, both of Ramsey, Ill. The rehearsal dinner was given at the home of the bride's parents, operated by the bride's parents.

Representative Balloting Different This Year

LOYD "CURLY" HARRIS

Lloyd "Curly" Harris, 68, of 3233 Aubrey avenue, a Democratic candidate of the representative nominating committee, is a senior member of the Illinois House of Representatives with 28 continuous years as member. He has a high school education and is a member of St. Bartholomew's Episcopal Church, the American Legion, Veterans of Foreign Wars, 40 and 8 Society, and World War I Veterans Last Man's Club.

Harris has two sons and five grandchildren and neeks. Quincy City support so the area can be represented by a local, experienced state representative who has won statewide respect.

His answers to a Press-Record questionnaire follow:

1. Yes.
2. Yes. On an ability-to-pay basis, probably a modified income tax with a repeal of the sales tax. Also, an amendment to the constitution providing for a homestead exemption. I co-sponsored such a resolution in the last session of the General Assembly.
3. The need for a preferential treatment for the local campus has already been determined by two exhaustive surveys. This was the reason that I offered the amendment allocating \$25,000,000 for the start of construction of the school.
4. I passed such legislation in the last regular session of the legislature. The Act was nullified by an amendment adopted by the Senate. This I hope to rectify if re-elected as a member of the legislature.
5. Legislative changes must be determined by rapidly changing times and can best be met by a more flexible constitution which can be brought about by a constitutional convention and the proposals must be submitted to a vote of the people for adoption or rejection. Annual sessions of the legislature will be a progressive move in the right direction. This proposition will be on the ballot for the November election and should be vigorously supported by all the voters without regard to party affiliation.

STORM WINDOWS AND DOORS—GRANITE CITY GLASS CO., TR 7-5400

LELAND J. KENNEDY

Leland J. Kennedy, 55, of 926 Washington avenue, Alton, is an incumbent state representative and is a Democratic candidate for the nominating committee. He is an operating engineer for the Shell Oil Co., Wood River. Kennedy has served six years as a member of the Alton city council and 10 years in the General Assembly. He is a 1927 graduate of Old Cathedral high school and has taken night courses in political science and drafting.

His civic activities include membership in the Fourth Degree Knights of Columbus, VFW, Wood River Post 2839, the International Union of Operating Engineers, and he also is active in Cub and Boy Scout work. Kennedy and his wife have two children, Patrick, 14, and Maureen, 9.

"Because of my past experience in public office, I feel that I can ably represent all segments of society in the Illinois General Assembly," Kennedy said.

His answers to the Press-Record questionnaire follow:

1. Yes.
2. I favor revenue reform. But this is a matter deserving of serious consideration and I would like to study any of the proposals submitted at the next session of the General Assembly should reach its maximum educational facilities as rapidly as possible.
3. I am in favor of the bill that passed the 73rd General Assembly giving proportionate representation to Madison county.
4. I believe the University should reach its maximum educational facilities as rapidly as possible.
5. Two of the proposals have already been answered in the above questions, such as the revenue reform and the advancement in the education facilities. The prevention of the passage of anti-labor and social legislation.

Marriage License Issued

A marriage license has been issued by Deputy Clerk Elvira Thurber to James H. Holmes, 21, 1928 Benton street, and Sharon Clark, 18, 2806 Buxton avenue.

GUY M. LAHR

Guy M. Lahr, 45, of 330 Lenox avenue, is seeking to be a delegate for the Democratic representative nominating committee. He previously has been a candidate for state representative.

Lahr, a Granite City school teacher, also worked as a radio and television announcer and newscaster. He is a 1937 graduate of Granite City high school and a 1933 graduate of Short-leaf College, Alton, with a BS degree in Science. He received a master of Education degree in 1963 at the University of Illinois.

He and his wife, who also is a teacher, have two children, son, 19, who is a sophomore at the Alton SWU campus, and a daughter, 15, who is a GCIS sophomore. He is a member of the Baptist Church and Tripp Lodge 835 AF&AM, the Eastern Star of Tennessee, Scottish Rite Omega, national honorary dramatic fraternity, Psi Kappa Delta, foreign honor fraternity, the American Federation of Radio and Television Artists and the American Federation of Teachers.

Stating his reasons for seeking public office, Lahr said: "I fought for a return of our lost voting rights. 2. Attempt to reduce school construction cost and reduce property taxes. 3. Promote faster but more economical highway construction. 4. To help lead the fight against poverty and ignorance."

Lahr's answers to the Press-Record questionnaire follow:

1. Yes.
2. Yes. I favor revenue reform starting with a review of public expenditures. I might also support a property tax reduction to be offset by an earnings tax for a more equitable distribution of the tax load to include taxation of most all who benefit from the taxes.
3. I believe SWU should be developed at a rate of speed comparable to our population increase plus facilities for students encouraged to come into the area. The talent brought in to the area may prove invaluable to our future progress and development.
4. I favor representation on the levee board in proportion to

3 Seek 2 Demo Posts, No Contest for GOP

Balloting in tomorrow's primary for state representative candidates from the Madison county 53rd district will be different, since the three Democratic candidates and two Republicans are seeking to be named delegates to nominating convention set for June 1 in Springfield instead of actually running for office.

Two Democrats and two Republicans are to be elected for the conventions. The unusual system resulted when the General Assembly failed to reappoint the state's districts. The delegates will nominate themselves to candidacy for the November general elections.

The compromise arrangement will be for each party to have 118 nominees to be included on the November general election. For tomorrow's election, the polling place judges will not be faced with the task of tallying half-votes in the representative races—a time consuming task that usually delayed complete returns on election night.

A list of the questions asked each representative delegate candidate by the Press-Record appears below, and the answers are listed in the text of other biographical information given by the candidates.

1. Do you favor districting of the Illinois House of representatives on the basis of equal population?
2. Do you favor "revenue reform" and if so, what form?
3. Do you think Southwestern Illinois University should be developed on the basis of "taking its turn" with other geographic areas of the state, or more rapidly due to the large population and comparative lack of higher education facilities in Madison and St. Clair counties?
4. Do you favor equal or proportionate representation on the levee board for Madison county?
5. What legislative changes do you propose as state representative?

the cost to the counties involved.

5. A. I propose a bill requiring all school board members to attend an orientation course in school management and curriculum at the expense of the school district of which he is a member. The course to be given at or by a state supported university, tuition free.

12. I propose a centralized architectural office to provide plans for school construction. The purpose of this bill would be to eliminate duplication of supervision by both architect and an already bonded contractor, plus a stockpile of available drawings which could reduce the present 6% charge for architectural services to a fraction. The preceding could result in a savings of millions of dollars Illinois taxpayers for school construction.

C. I propose legislation to limit the amount of highway on which a contractor may bid at one time plus a requirement that the portion bid on must be completed before he is permitted to bid on another job of highway construction. The purpose is to create jobs, give money highway per dollar cost and expedite construction.

RALPH T. SMITH

Ralph T. Smith, 48, of No. 1 Signal drive, Alton, is the Republican incumbent state representative and a candidate in the nominating convention. He is a former Granite City and has served 10 years as a representative. He is married to the former Miss Mary Anderson of Granite City, and they have a 17-year-old daughter.

Smith is a member of the Elks, Eagles and Moose Lodges, the American Legion, Veterans of Foreign Wars, Masonic orders and the Presbyterian Church. Stating his reason for seeking public office, Smith said: "I want to continue to serve the people of the area."

His answers to the Press-Record questionnaire follow:

1. Yes.
2. In favor of revenue reform. There is a need for rapid growth. I worked to get the university here, but the state's Board of Higher Education is to determine the progress for all universities.
3. Yes.
4. Mechanical inspection of all passenger autos at regular intervals by a state agency. Defective autos cause 16% of all traffic accidents in the state. There should be changes in the marriage law, raising the minimum age. Extremely youthful marriages are causing the state's divorce rate to climb. I also favor a constitutional amendment to outline emergency governmental procedures in the event of an enemy atomic attack.
